“ Carrie brought a special gift to the family and to those whose lives she touched. Because of her, they learned what it is to care for a person who can't care for herself and they learned to give of themselves and to love and accept all these who are different than we are. Carrie had a lifetime of love from not only her family and caregivers but from those who were around her, young and old alike. She was special in so many ways. Now she is at peace.

“ Carrie will always hold a very special place in my heart as well as her whole family. I’ve never met a soul who had anything negative to say about her or anyone who cared for her. I could not imagine having a better family and young woman to work with as one of my first connections after transferring departments within my work place. Getting to know Carrie and her family while being able to help in any aspect of her living a better life at that time, made work feel more like visiting extended family and friends. She will forever be missed and she has left a positive mark in this world that will last forever ❤️🙏
