“ *Frank and i owned Metal Specialties and had a little shop there on 5th ave in Huntington and Keith would come down to use the brake or to sheer some metal . We enjoyed getting to know Keith and ended up becoming good friends. We lost touch with Keith when we moved to Florida yet we couldn't talk about home and not talk about Keith and wonder what he was doing! Frank passed away in October a few months back and now to read that Keith has passed too ... a whole era has disappeared in a split second. I'm just heartbroken for two gentleman who really knew the HVAC business! Keith I'm sure you and Frank are catching up and talking about old times right about now
Smiles to you both...

“ My brother loved to squirrel hunt. He would get so excited when the season was about ready to start. One year, I would say he was about 11 and I was 8 he was so excited that he was going squirrel hunting the next morning that he couldn't sleep. He came to my room and woke me up and ask me if I would talk to him. So I got up and we sat on his bed and talked about hunting for a couple hours until we fell asleep. I will never forget that!

“ Betty - have to many memories - but a picture comes to mind - when I went to the beach with Becky and her twin Bobbi - when I came home you all were at Mom's and I held Keith in my lap - have to find that pic! I will always be his "auntie" Linda Jo! I love you so much - I have never experienced this pain - may God comfort you - I am always a call away!
